Subject: RE: Bad River - Water Quality Standards - public comment period

Hi Chris,

Yes, we did incorporate the new ammonia equations. And we did revise our narrative criteria (including the sulfate/wild rice one). We also refined our antideg section – I believe our concepts remained the same, but we improved the clarity of this section. We also tweaked some of our definitions.

I hope this helps! And let me know if you have questions.

Thanks,  
Naomi

Hi Naomi,

I did look at it, and it appears that you went with a narrative on the wild rice. I also noticed you did manage to incorporate the 2009 ammonia changes. If there were other "major" items, I'd be glad to know, but I thought you were pretty close to completion at the time of our last correspondence.

If you did change a number of other items, do let me know. Thanks!

Chris

Hi Chris,

Let me know if it would be useful for me to give you a summary of what we changed since the last time you looked at our WQS document.

Thanks,  
Naomi

Hi Naomi,

Thanks for the update. I had made a note to myself earlier to give you a call as I heard on Monday that you'd be releasing this week or next.  
Hope all goes well with your public process.

Chris Wagener

---

Hello,

The Bad River Band started the public comment period for our proposed water quality standards on February 7, 2011. A public notice was published in the Ashland Daily Press. Our public hearing is scheduled for Monday, March 28, 2011, from 5:00-7:00 p.m. This public hearing will be held at the Bad River Lodge and Casino Convention Center, Madigan Room, in Odanah, Wisconsin.

A pdf file with our proposed water quality standards is attached. Please let me know if you have any questions/comments.

Thanks,  
Naomi
